Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 3, 6, 8, 9, 11, 14, 16, and 17 are rejected under 35 U.S.C. 102(e) as being anticipated by Ben-Shaul et al. (6,976,090).
3. Ben-Shaul teaches a method and system (abstract) of providing content with annotated hyperlinks (col. 1, line 1 – col. 20, line 65 and col. 66, lines 15-20) such that a hyperlink map is built to facilitate the deactivation and reactivation of hyperlinks, or to change the hyperlink to point to a different server (col. 20, line 65 – col. 35, line 10; col. 41, line 10 – col. 42, line 5) and wherein online changes are reconciled ((col. 37, line 30 – col. 40, line 55).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2145

5. Claims 2, 4, 5, 7, 10, 12, 13, and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ben-Shaul as applied to claims 1, 3, 6, 9, 11, and 14 above, and further in view of Maslov (6,842,755).

6. Ben-Shaul does not expressly disclose how to best develop the hyperlink map. Maslov teaches a method and system (abstract) of developing document trees based on page hierarchies (col. 1, line 1 – col. 8, line 5; col. 10, lines 10-35), wherein modifications based on depth and reconciliation of ambiguities are performed (col. 8, line 5 – col. 10, line 10).

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. They regard further teachings on document trees and hyperlink modification.
